METAVERSE

Night in Garden of Eden
"EDEN NIGHT"

Two times of day and night coexist in Garden of Eden. A day in real life will be doubled in our world.
You will enjoy a variety of economic activities between the boundary of light and darkness.
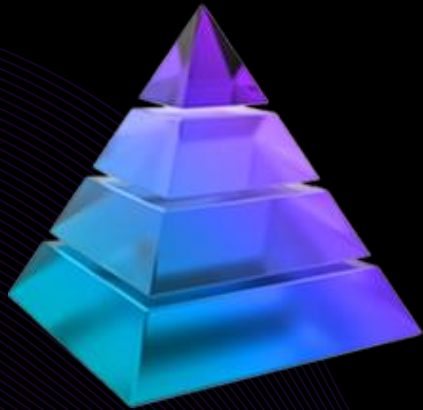

EDEN HORSE

The 1st Metaverse Project Night

EDEN Horse, a crypto horse racing game developed together with the greatest actual racehorse owners.
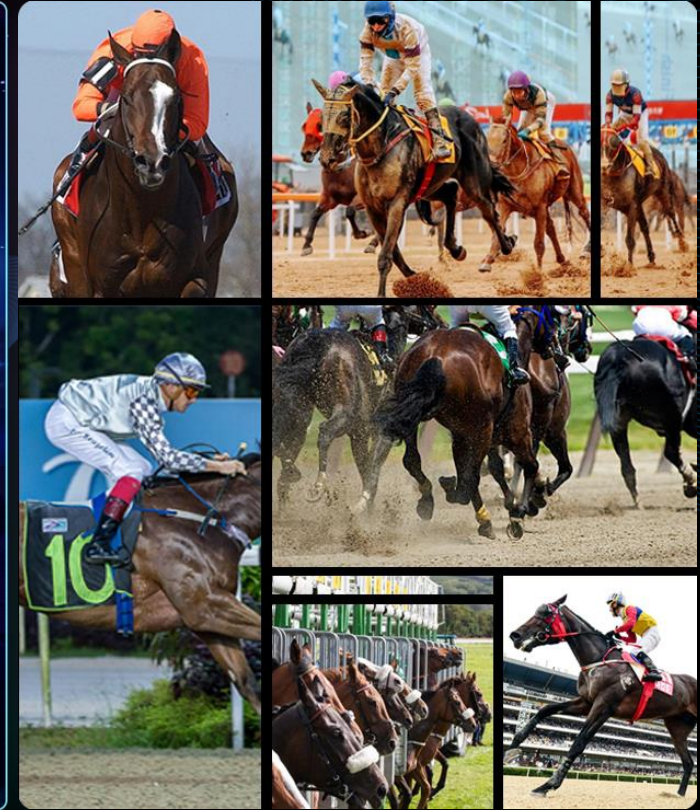

Web 3.0 Game

P2E Racehorse Tournament
### - Player

Reality Metaverse
Users participate in horse racing games by
purchasing crypto pari-mutuel tickets.
The 2nd Generation Racehorses are NFTs
Created based on real racehorse data while
tendencies and values of the horses will be
created through tournaments.

Stallion Management
- Horse Owner

Content & Prosumer System
Users choose the sire provided in-game
and breed with the reality-based
1st Generation Dam NFT,
then a Metaverse racehorse will be born!
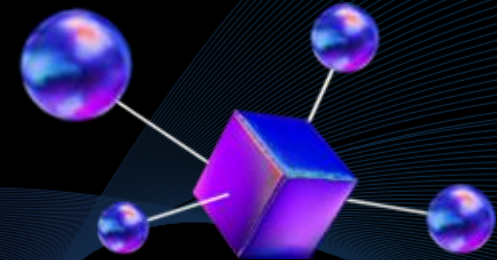

Economy- Community

Be a collector in our family based on family's D.A.O.
Real horse owners from all around the world will join us
and together we expand the community
by connecting the ecosystem to our crypto horse racing
to provide liquidity.
