

How to Import NFT

STEP

1. [Check on Etherscan](#) (Check Contract & Token ID)
2. [Import NFT on MetaMask](#)

1. Check on Etherscan (Check Token ID)

The screenshot shows the Etherscan website interface. At the top, the browser tab is labeled "Ethereum (ETH) Blockchain Expl" and the address bar shows "etherscan.io". The main header includes the Etherscan logo and navigation links for "Home" and "Blockchain". Below the header, the text "The Ethereum Blockchain Explorer" is displayed. A search bar contains the text "0x0d", which is highlighted with a red border. To the right of the search bar is a blue notification bubble with the number "1" and the text "Insert your MetaMask wallet address." Below the search bar, there is a sponsored advertisement for MetaWin, which reads: "Sponsored: Win 150 ETH today at MetaWin. Click to enter for free. Limited time only."

1. Check on Etherscan (Check Token ID)

The screenshot shows the Etherscan interface for the address 0x0d. At the top, there are navigation buttons for 'Buy', 'Exchange', 'Earn', and 'Gaming'. Below the address, there is a sponsored banner for MetaWin. The main content is divided into three panels: 'Overview', 'More Info', and 'Sponsored'. The 'Overview' panel shows an ETH balance of 0.0 and a token holding of 2 tokens worth \$0.00. The 'More Info' panel has sections for 'PRIVATE NAME TAGS' (with a '+ Add' button), 'LAST TXN SENT', and 'FIRST TXN SENT'. The 'Sponsored' panel contains an advertisement for 'Advertise your brand here!' with a 'Start Today' button. Below these panels is a navigation bar with tabs for 'Transactions', 'Internal Transactions', 'Token Transfers (ERC-20)', and 'NFT Transfers'. The 'NFT Transfers' tab is highlighted with a red box and a blue callout bubble containing the number '2' and the text 'Click NFT Transfers.'. Below the navigation bar is a table of 'Latest 12 NFT Transfers Token Transfer Events'. The table has columns for 'Transaction Info', 'Method', 'Age', 'From', 'To', 'Type', and 'Item'. The first row shows a 'Mint' transaction from 'Null: 0x000...000' to '0x0d' of type 'ERC-721'. The 'Item' column contains a small image of a horse and the text 'Burning Flower #10/100' and 'NFT: Edenhorse 1ST NFT'. The text 'Burning Flower #10/100' is highlighted with a red box and a blue callout bubble containing the number '3' and the text 'Click NFT title.'.

3 Click NFT title.

1. Check on Etherscan (Check Token ID)

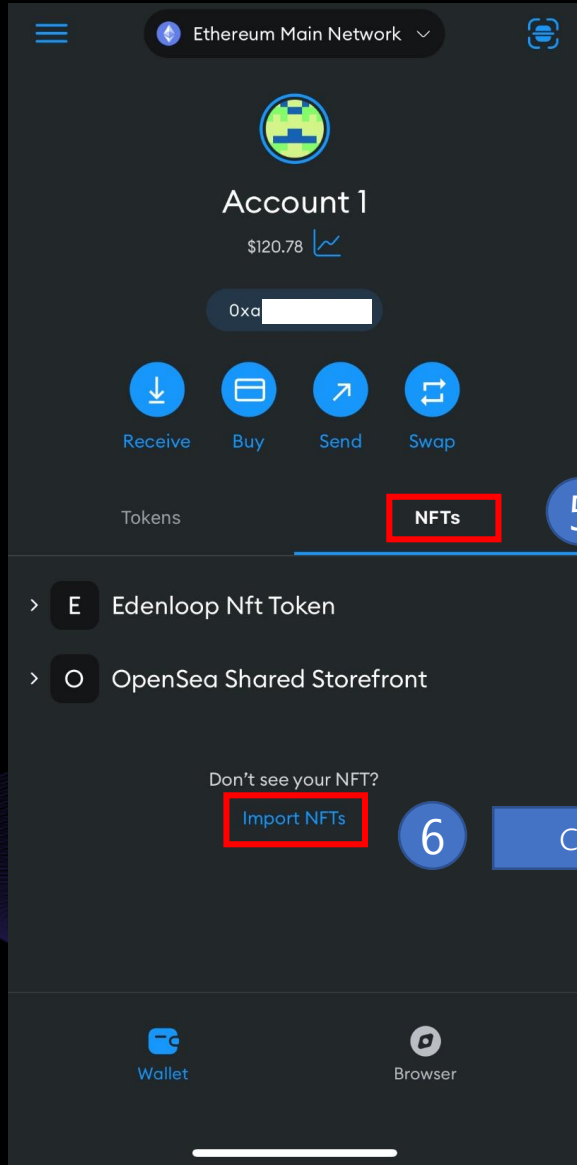

The screenshot shows the Etherscan interface for an NFT titled "Burning Flower #...". The main image displays a white horse on a dark blue platform with the text "1st BURNING FLOWER". To the right, the "Details" section lists the following information:

- Owner: 0x0d
- Contract Address: 0xded6792F460A9ee92bd5c0c3419C7d7702D41E5 (highlighted with a red box and a blue circle with the number 4)
- Creator: 0x89d6cDA7A82...058a3dee7A628dCB70fD0B
- Token ID: 131 (highlighted with a red box and a blue circle with the number 4)
- Token Standard: ERC-721

A blue callout box on the right side of the details section contains the text: "Check Contract Address & Token ID and click copy icon." Below the details, the "Item Activity" section shows a table with one record:

Txn Hash	Age	Action	Price	From	To
0x5104cd61cfba4b8c4...	11 days 23 hrs ago	Mint	Null: 0x000...000	0x000...000	0x0d

2. Import NFT on MetaMask

5

Go to MetaMask and click NFTs.

6

Click Import NFTs.

2. Import NFT on MetaMask

The screenshot shows the 'Import NFT' screen in the MetaMask mobile app. At the top, it says 'Import NFT' and 'Ethereum Main Network'. Below that is a modal box for 'NFT detection' with a close button (X). The modal text says 'Allow MetaMask to automatically detect NFTs from OpenSea and display in your MetaMask wallet' and has a red box around the text 'Turn on NFT detection in Settings' with a callout '7'. Below the modal is the 'Address' field with a red box around the text '0xded6792F460A9ee92bd5c0c3419C7d7702D41E5E' and a callout '8'. Below that is the 'ID' field with a red box around the text '122' and a callout '9'. At the bottom are two buttons: 'CANCEL' and 'IMPORT', with a red box around the 'IMPORT' button and a callout '10'. At the very bottom are icons for 'Wallet' and 'Browser'.

7

Click 'Turn on NFT detection in Settings'.

8

Insert copied contract address

9

Insert copied Token ID copied

10

Click import.
